# What is the Condition of Your Condition Monitoring Program?

With fewer resources and a mounting loss of experienced personnel, many facilities are struggling to maintain the reliability and availability of their machinery to meet production goals. Whether your condition monitoring program is new, expanding, or in need of modernization, we have a flexible, comprehensive strategy to share with you. Our approach integrates portable, wireless, and online monitoring into a single platform with common interfaces to deliver accurate results. Spend a day with our industry experts to learn how these solutions can apply to your condition monitoring process.

**Join ECI and Emerson to learn about condition monitoring best practices and strategies to take your program to the next level!**

**Wednesday, May 22, 2024**

9:30 a.m. – 4:00 p.m.

**Cabela's:**

1 Cabela Drive  
Triadelphia, WV 26059

Lunch will be provided.

## Agenda
