

DELTATMV ROADMAP

IMPROVING PLANT PERFORMANCE

Join ECI and Emerson for our DeltaV Roadmap: Improving Plant Performance seminar! This one-day learning event is for DeltaV users and those considering implementing DeltaV for future automation opportunities. This training shares best practices, modernization strategies and real-world scenarios that support enhanced reliability, safety, quality and production. Improved situational awareness and simplified operations are attainable with a reliable control system and related support.

TOPICS

- DeltaV Roadmap
- High Performance Graphics
- Alarm Management
- State-Based Control
- Lifecycle, Guardian and Local Support
- Automation Modernization Best Practices
