# Tank University™ Seminar

March 14, 2019

9 a.m. - 4 p.m.  
Continental Breakfast  
and Lunch

Holiday Inn  
803 S. Leonard Ave.  
Lima, OH 45804

Join ECI and Cornerstone Controls for our free, hands-on Tank University Seminar featuring an introduction to storage tank safety solutions, including tank blanketing, pressure relief and emergency valves, and flame arrestors. Learn about considerations for storing liquids in tanks, sizing and selection, and potential incidents and preventative measures.

## Presenters

### Steve Ludtman

- Emerson Regional Manager
- 23 Years of pressure regulator experience
- Instructor: Emerson's Gas Conference and trainings; Appalachian Gas Short Course

### Bill Pace

- Field Level Specialist for Emerson's Rosemount
- 30 Years of applications engineering experience
- Leads Rosemount's process level efforts in the Northeast

## Agenda

- Introduction to Storage Tanks
- Venting Guidelines (API 2000)
- Tank Pressure and Relief Vents
- Tank Blanketing and Regulators
