EMERSON™

# DeltaV and PK Controller Seminar

## Operate at full potential with Emerson's DeltaV™ and PK Controller!

Join ECI on March 26, to learn about the Emerson solutions that will help you drive productivity and operational efficiency.

DeltaV v14 redefines how a distributed control system should operate, making a step change in usability, efficiency, and insight. The DeltaV PK Controller brings ground-breaking innovation and technology that is a powerful standalone for small units and easily integrates into a plant-wide DCS.
