

Emerson Impact Partner

Your Industrial Automation and Process Control Partner

724-746-3700 | www.eci.us

Burgess-Manning delivers a full range of industrial noise control solutions engineered for demanding applications.

Our portfolio includes:

- Vent Silencers
- Blowdown Silencers
- Inline Silencers
- Blow Down Separator Silencers
- Reactive Silencers
- Sound Wall
- Acoustical Enclosures

With decades of engineering expertise and global manufacturing capability, we provide custom silencer designs tailored to each project's acoustical, mechanical, and process requirements, ensuring reliable performance, safety compliance, and long-term operational efficiency.

Inline Silencer

Vent Silencer

Blow Down Separator Silencers

Reactive Silencer

Sound Wall

Acoustical Enclosures

An authorized Burgess-Manning partner, ECI delivers engineered solutions developed to control noise and enhance operational performance.
